

# Why incorporate MyEKC?

**Google Workspace and Microsoft 365 are great tools but they don't offer an information hub that addresses employee accountability and unique employee access to their processes, position agreements, and company policies in one secure location.**

Feature	MyEKC	Google Workspace	Microsoft 365
A straightforward framework for process and performance management	<input checked="" type="checkbox"/> Custom-built hubs for processes, handbook, and position agreements	<input checked="" type="checkbox"/> Requires manual file structuring	<input checked="" type="checkbox"/> Requires SharePoint integration
Managed information that links and assigns to appropriate employees automatically	<input checked="" type="checkbox"/> Built-in user and document linking (a Relational Database)	<input checked="" type="checkbox"/> No	<input type="checkbox"/> Limited (via Excel/Access)
Set access to view and modify sensitive company information	<input checked="" type="checkbox"/> Admin, Manager, Employee, and Associate (non-employee) permission levels	<input type="checkbox"/> Manual permissions	<input type="checkbox"/> Manual SharePoint groups
Employees have personalized dashboards each with their specific data	<input checked="" type="checkbox"/> Yes, automatically created	<input checked="" type="checkbox"/> Not available	<input checked="" type="checkbox"/> Needs Power BI or custom dev
Assurance that every employee is accountable for their work and company policies	<input checked="" type="checkbox"/> Yes for processes, employee handbook, and position agreements through digital acceptance	<input checked="" type="checkbox"/> Not available	<input checked="" type="checkbox"/> Needs Power BI or custom dev
Communicate anytime from anywhere to any or all employees instantly	<input checked="" type="checkbox"/> Easy to use text and emails that include communications shown in platform	<input checked="" type="checkbox"/> Only email (manual)	<input checked="" type="checkbox"/> Email/Teams
Automated reminders for regularly scheduled tasks	<input checked="" type="checkbox"/> Automated reminders assigned within processes employees are responsible for performing	<input checked="" type="checkbox"/> Manual reminders only	<input checked="" type="checkbox"/> Yes (with Outlook/Planner)
Automated reporting to track organization and employee progress	<input checked="" type="checkbox"/> Built-in employee accountability and organization progress reports	<input checked="" type="checkbox"/> None	<input checked="" type="checkbox"/> With Power BI
Built-in video and written documentation guides	<input checked="" type="checkbox"/> Yes along with external tech support and workshops	<input checked="" type="checkbox"/> External support	<input checked="" type="checkbox"/> Limited documentation
Built in Human Resources features	<input checked="" type="checkbox"/> Yes: Organization Chart and Employee Handbook (company policies)	<input checked="" type="checkbox"/> Manual	<input type="checkbox"/> Requires Visio/Power Automate
Customization & Branding	<input checked="" type="checkbox"/> Logo on every page and ability to customize predefined labels	<input type="checkbox"/> Limited headers	<input checked="" type="checkbox"/> Some theming
